Description

A magnificent village house in Lloseta with a floor area of 246 m² spread over two floors and offering a wide range of potential uses. This is a spacious property full of character, ideal both for those seeking a large family home and for those who would like the option of creating two separate dwellings.~~The ground floor features a spectacular garage with space for more than three cars, offering direct access into the house. On this floor, there is a spacious living room with a wrought-iron fireplace, a double bedroom, a large separate kitchen with a fireplace, a full bathroom with a bath, and a spacious pantry. The large living room leads out to a magnificent courtyard of around 30–40 m² with a barbecue; an external staircase from the courtyard also provides access to the upper floor.~~The property also features a second independent entrance from the street, leading directly to the first floor. On this level there are four bedrooms, two bathrooms—one full bathroom with a bath and a separate toilet—a cosy living room with a fireplace, a separate dining room and a hallway. There is also the possibility of fitting out a separate kitchen with access to a second terrace of around 25–30 m².~~Notable features include air conditioning and aluminium Mallorcan-style external shutters, which add comfort and practicality to the property.~~The property is in need of updating, but offers a solid structure, spacious rooms and enormous potential to be adapted to a variety of residential projects. An excellent opportunity in a quiet yet well-connected area of central Mallorca, boasting the charm and authenticity of traditional Mallorcan village houses.~
